Guidance for IEP Teams on Participation Decisions on the Alternate Assessment of South Dakota Content Standards

South Dakota Department of Education
08/29/2019

What is my role?

- Ensure student is marked as alternate assessment in Infinite Campus.
- Ask case manager if they have necessary documentation/evidence in student's file.
- Provide support to test administrators.

Identifying a student as significantly cognitive disabled is a **team** decision.

Background for the Alt Assessment

IDEA Sec. 300.160

(a) General. A State must ensure that all children with disabilities are included in all general State and district-wide assessment programs,...with appropriate accommodations and alternate assessments, if necessary, as indicated in their respective IEPs.

ESSA Amendment to ESEA Sec. 1111(b)(2)(D)

State Requirements

- Base IEP team decision on States Alternate Assessment (AA) Identification Guidelines
- Inform Parents:
 - That their child's academic achievement will be measured based on alternate standards
 - How participation in the alternate assessment may delay or otherwise affect completing the requirements for a regular high school diploma

ESSA Amendment to ESEA Sec. 1111(b)(2)(D)

- Limits the number of students who may take an alternate assessment to no more than 1.0 percent of the total number of students in the state who are assessed in a given subject
- States, however, cannot place a limit on AA participation at a district (or school) level
- Requires districts to submit justification for overage and states to provide oversight and publicly post district data

Eligibility for the Alternate Assessment

- Why?
 - Making sure to use the right assessment for each student
 - ESSA 1% participation requirement
 - We are below the 1% requirements
 - Need to remain diligent in ensuring that student are taking the appropriate assessment

National Shifts in Definition to reduce 1% numbers

Idaho

- IQ typically 55 or less
- The student's course of study is primarily adaptive skills oriented typically not measured by state or district assessments.

South Dakota looking at painting a clearer picture of the term “significant cognitive disabilities” as well.

Red Flags

- SLD or other level 1 category
- Not using Core Content Connectors
- Have previously taken regular assessments
- IQ right around 70

Which students are eligible for the Alternate Assessment?

Significant Cognitive Disability

- Significant Cognitive Disability
 - Not a separate category of disability
 - A designation given to a small number of students
 - Needs adaptive behavior skills
 - Considerations for purposes of participation in the alternate assessment,
 - ALL of the criteria must be true
 - Determined by the evidence collected
 - Considered by all members of the student's IEP team

Core Content Connectors

- Things IEP teams need to think about:
 - For students with significant cognitive disabilities struggling to access the State Content Standards, a “bridge” called the Core Content Connectors (CCC) are available.
 - Core content connectors:
 - Divide the State Standards into smaller pieces
 - Don’t cover the full breadth of any State Content Standard
 - Allow access to grade level standards
 - Should be used to align intermediate goals on IEPs.

- Teachers and IEP teams
 - Need to consider which are appropriate for the student to use:
 - South Dakota Content Standards or
 - Core Content Connectors
 - What is used to guide the development of appropriate academic goals
 - To provide maximum engagement with the general curriculum and typical peers with appropriate
 - adaptations,
 - simplifications, and
 - modifications to grade-level materials and content

Participation and Eligibility Decisions

- Step 1: Understanding the Eligibility Criteria for Alternate Assessments
- Step 2: Gathering Evidence
- Step 3: Documenting the Decision

South Dakota's Alternate Assessment Participation Guidelines

The criteria for participation in the alternate assessment reflect the pervasive nature of a significant cognitive disability. All content areas should be considered when determining who should participate in this assessment. Thus, a student who participates in the alternate assessment participates in this assessment for all content areas.

In addition, evidence for the decision for participating in the Multi State Alternate Assessment is **NOT BASED** on:

1. A disability category or label
2. Poor attendance or extended absences
3. Native language/social/cultural or economic difference
4. Expected poor performance on the general education assessment
5. Academic and other services student receives
6. Educational environment or instructional setting
7. Percent of time receiving special education services
8. English Language Learner (ELL) status
9. Low reading level/achievement level
10. Anticipated disruptive behavior
11. Impact of student scores on accountability system
12. Administrator decision
13. Anticipated emotional duress
14. Need for accommodations (e.g., assistive technology/AAC) to participate in assessment process)

Participation Criteria	Participation Criteria Descriptors	Agree (Yes) or Disagree (No)? Provide documentation for each
1. The student has a significant cognitive disability	Review of student records indicate a disability or multiple disabilities that significantly impact intellectual functioning and adaptive behavior. <i>*Adaptive behavior is defined as essential for someone to live independently and to function safely in daily life.</i>	Yes / No
2. The student is learning content linked to (derived from) the State Content Standards	Goals and instruction listed in the IEP for this student are linked to the enrolled grade level Content Standards and address knowledge and skills that are appropriate and challenging for this student.	Yes / No
3. The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade-and age-appropriate curriculum	The student (a) requires extensive, repeated, individualized instruction and support that is not of a temporary or transient nature and (b) uses substantially adapted materials and individualized methods of accessing information in alternative ways to acquire, maintain, generalize, demonstrate, and transfer skills across multiple settings.	Yes / No

The student is eligible to participate in the Alternate Assessment only if **all responses** above are marked Yes

Student Name: _____ DOB: _____

SSID: _____ IEP Meeting Date: _____

Participation Criteria	Participation Criteria Descriptors	Agree (Yes) or Disagree (No)? Provide documentation for each
1. The student has a significant cognitive disability	<p>Review of student records indicate a disability or multiple disabilities that significantly impact intellectual functioning and adaptive behavior.</p> <p><i>*Adaptive behavior is defined as essential for someone to live independently and to function safely in daily life.</i></p>	Yes / No
2. The student is learning content linked to (derived from) the State Content Standards	Goals and instruction listed in the IEP for this student are linked to the enrolled grade level Content Standards and address knowledge and skills that are appropriate and challenging for this student.	Yes / No
3. The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade-and age-appropriate curriculum	The student (a) requires extensive, repeated, individualized instruction and support that is not of a temporary or transient nature and (b) uses substantially adapted materials and individualized methods of accessing information in alternative ways to acquire, maintain, generalize, demonstrate, and transfer skills across multiple settings.	Yes / No

The student is eligible to participate in the Alternate Assessment only if all responses above are marked Yes

Step 1: Understanding the Eligibility Requirements

1. The student has a significant cognitive disability.

- Does student have a disability, or disabilities, that significantly impacts cognitive function and adaptive behavior?
 - Review of student records and other evidence indicate a disability or multiple disabilities that prevent the student from meaningful participation in the standard academic core curriculum or achievement of the standards at their enrolled grade level.
 - Depends on others for many, and sometimes all, daily living needs, and requires extensive ongoing support in adulthood.

Step 2: Understanding the Eligibility Requirements

- 2. The student is learning content linked to (derived from) South Dakota state content standards).**
 - Goals and instruction for this student
 - adapted to reflect the enrolled South Dakota Content Standards grade-level CCCs and
 - address knowledge and skills that are appropriate and challenging for this student.
 - Life and job skills are also embedded and included as part of the student's instruction and may provide the context for access to the standards.

Step 3: Understanding the Eligibility Requirements

- 3. The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade-and age-appropriate curriculum.**
 - Demonstrated cognitive functioning and adaptive behavior is significantly below age expectations, even with program modifications, adaptations, and accommodations.
 - Impacts academic, life, and job skills in home, school, and community.
 - ways to acquire, maintain, generalize, demonstrate, and transfer skills

Step 3: Continued...

The student requires extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade-and age-appropriate curriculum.

- Covers the three aspects of learning:
 - ***What the student needs in order to learn.***
 - Student **requires** extensive, repeated, individualized instruction and supports from teachers and other professionals.
 - ***The types of materials required in order for the student to learn.***
 - Materials significantly modified, customized, and adapted to facilitate understanding.
 - ***How the student demonstrates their learning.***
 - Substantial supports needed to achieve gains in the grade-and-age-appropriate curriculum
 - Requires substantially adapted materials and customized methods of accessing information in alternate ways to acquire, maintain, generalize, demonstrate, and transfer skills

Gathering Evidence

- Two reasons for using multiple pieces of evidence to inform this decisions:
 - Prevents decision-making that relies on one type of evidence (e.g., IQ score or disability category)
 - Provides a complete picture of the student both academically and in social settings
 - Shouldn't be based on opinion or empathy

**THE TEAM HAS MADE THEIR
DECISION...NOW WHAT?**

If Decision is Yes

- If the IEP team determines that the student is eligible,
 - Within the IEP: In the assessment section (a, b, & c)
 - Complete the Evidence Based Worksheet or the Alternate Assessment Worksheet
 - attach a copy to the IEP
 - **Complete this form each year at the time of the IEP annual review.**
 - *This must also be documented for students participating in districtwide assessment(s)*

Assessment
<input type="checkbox"/> Student will be taking state and district-wide assessments with or without accommodations.
<input type="checkbox"/> Student will be taking state and district-wide alternate assessments (The alternate assessment is for students working in the alternate achievement <u>standards</u>) (Annual goal and short term objectives required) <ul style="list-style-type: none">a. Does the student meet the significant cognitive disability criteria? (If no, student is not eligible to take the alternate assessment) <input type="checkbox"/> Yes <input type="checkbox"/> Nob. Explain the reason why the student cannot participate in the regular assessment. <div></div>c. Explain the reason why the alternate assessment selected is appropriate for this student. <div></div>
<input type="checkbox"/> No state and/or district-wide assessments are required at this student's grade level during the course of this annual IEP.

• Documentation of Evidence Worksheet

<https://doe.sd.gov/assessment/alternate.aspx>

Documentation of Evidence Worksheet

This worksheet is designed to help IEP Teams match evidence to the specific criteria in order to help make decisions. It is not a required part of the decision-making process. If used, attach to the Eligibility Form.

Eligibility Criteria	Write Description of Documentation and Evidence Below	Sources of Evidence (check if used)
<p>1. Student has a disability that significantly impacts cognitive function and adaptive behavior*</p> <p>*Adaptive behavior is defined as essential for someone to live independently and to function safely in daily life.</p> <p>YES <input type="radio"/> NO <input type="radio"/></p>		<p><input type="checkbox"/> Results of Individual Cognitive Ability Test</p> <p><input type="checkbox"/> Results of Adaptive Behavior Skills Assessment</p> <p><input type="checkbox"/> Results of individual and group administered achievement tests</p> <p><input type="checkbox"/> Results of informal assessments</p> <p><input type="checkbox"/> Results of individual reading assessments</p> <p><input type="checkbox"/> Results of district-wide alternate assessments</p> <p><input type="checkbox"/> Results of language assessments including English language learner (ELL) language assessments if applicable</p> <p><input type="checkbox"/> OTHER:</p>
<p>2. The student's instruction is aligned to the South Dakota Content Standards in ELA, Math, and Science but is adapted to reflect the knowledge and skills in the Core Content Connectors.</p> <p>YES <input type="radio"/> NO <input type="radio"/></p>		<p><input type="checkbox"/> Examples of curriculum, instructional objectives and materials including work samples</p> <p><input type="checkbox"/> Present levels of academic and functional performance, goals and objectives from the IEP</p> <p><input type="checkbox"/> Data from scientific research-based interventions</p> <p><input type="checkbox"/> Progress monitoring data</p> <p><input type="checkbox"/> OTHER:</p>

If Decision is *No*

- IEP team decides that the student is **not eligible**, then three things must happen:
 - Student will participate in the state's general assessments with appropriate accommodations as determined by the IEP team.
 - Instruction is aligned to the State Standards via the general education curriculum.
 - Will not be able to learn the academic skills and knowledge assessed on the state's general assessments without access to the general education curriculum
 - Record of the decision must be recorded with the PPWN
 - Evidence Based Worksheet or Alternate Assessment Worksheet **may be** completed
 - attached to the IEP and
 - placed in the student's file

1. Student has a disability that significantly impacts cognitive function and adaptive behavior*

Eligibility Criteria	Write Description of Documentation and Evidence Below	Sources of Evidence (check if used)
<p>1. Student has a disability that significantly impacts cognitive function and behavior</p> <p>YES <input type="radio"/> NO <input checked="" type="radio"/></p>	<ul style="list-style-type: none"> • Can answer basic comprehension questions at grade level but has trouble drawing conclusions • Prefers to be read to • Can get correct answer for math calculation with use of a calculator • OCD prevents completion of testing which may not reflect true knowledge and abilities • Adept at using a computer and iPad 	<ul style="list-style-type: none"> <input type="checkbox"/> Results of Individual Cognitive Ability Test <input type="checkbox"/> Results of Adaptive Behavior Skills Assessment <input type="checkbox"/> Results of individual and group administered achievement tests <input checked="" type="checkbox"/> Results of informal assessments <input checked="" type="checkbox"/> Results of individual reading assessments <input type="checkbox"/> Results of district-wide alternate assessments <input type="checkbox"/> Results of language assessments including English language learner (ELL) language assessments if applicable <input type="checkbox"/> OTHER:

* Adaptive behavior is defined as essential for someone to live independently and to function safely in daily life

2. The student's instruction is aligned to the South Dakota Content Standards in ELA, Math, and Science but is adapted to reflect he knowledge and skills in the Core Content Connectors.

2. The student's instruction is aligned to the South Dakota Content Standards in ELA, Math, and Science but is adapted to reflect the knowledge and skills in the Core Content Connectors.

YES ☐ NO ☒

- Can answer some basic comprehension questions at grade level but has trouble drawing conclusions
- Requires calculator for all math calculations and can get the correct answer by following formulaic directions
- Needs reminders often about some basic numeracy concepts.

- ☐ Examples of curriculum, instructional objectives and materials including work samples
- ☒ Present levels of academic and functional performance, goals and objectives from the IEP
- ☐ Data from scientific research-based interventions
- ☒ Progress monitoring data
- ☐ OTHER:

3. The student required extensive direct individualized instruction and substantial supports to achieve measurable gains in the grade-and-age appropriate curriculum.

3. The student is unable to apply academic skills in home, school, and community without intensive, frequent, and individualized instruction in multiple settings.

YES ☒ NO ☐

- Can get correct answer following step-by-step directions
- Requires being reminded about some basic numeracy concepts
- Requires extensive coaching, prompting, modeling and breaks

- ☐ Examples of curriculum, instructional objectives, and materials including work samples from both school and community based instruction.
- ☒ Teacher collected data and checklists
- ☒ Present levels of academic and functional performance, goals, and objectives, and post school outcomes from the IEP
- ☐ Transition Plan for students age 14 or younger, if necessary
- ☐ OTHER:

The student is eligible to participate in alternate assessment only if ALL responses above are marked YES

Students with the Most Significant Cognitive Disabilities

- TIES Center recently published a resource, titled *Using the Least Dangerous Assumption in Educational Decisions*. There has been insufficient research to date to know what students with the most significant cognitive disabilities are able to do when given the opportunity to learn rigorous content while provided with appropriate supports. The least dangerous assumption holds that in the absence of conclusive data, educational decisions ought to be based on assumptions that, if incorrect, will have the least dangerous effect on student outcomes and learning. https://tiescenter.org/resource/SH/Py-il1RbSn3Hb5fMYLZA?utm_content=&utm_medium=email&utm_name=&utm_source=govdelivery&utm_term= TIES Center is the national technical assistance center on inclusive practices and policies. It works with states, districts, and schools to support the movement of students from less inclusive to more inclusive environments.
